Profile

Web developer with 4 years of working experience. Eager to learn more about my chosen profession and apply my skills. Adaptable, committed to tasks, and highly motivated.

Experience

Viva Communications Inc. Junior Application Developer

Mar 2020 – Apr 2022

- Developed a company-wide web application for tracking employee health
- Developed a web-based portal for company RFPs (request for payment)
- In development: an analytics dashboard for the company's streaming service
- Created several administrator dashboards for web applications

eLearning Systems Inc. Web Developer

Sep 2017 – Feb 2020

- Packaged lesson content for deployment
- Developed different file handling modules to existing applications using **React Native**, **PHP**, and **Server-Sent Events**
- Updated non-responsive parts of the company web app to responsive
- Worked with other team members for improvements and fixes to problems in both front-end and back-end
- **PrestaShop** configuration for **triniactive.com**, an online shop for women's activewear

UCPB GEN Intern

Jun 2016 – Feb 2017

- Provided technical support for employees
- Developed "OSTicket", a ticketing system with a spreadsheet generation module, and a CTPL Application using **CodeIgniter 3** with **PHPExcel**

Education
